

**NOTES:**

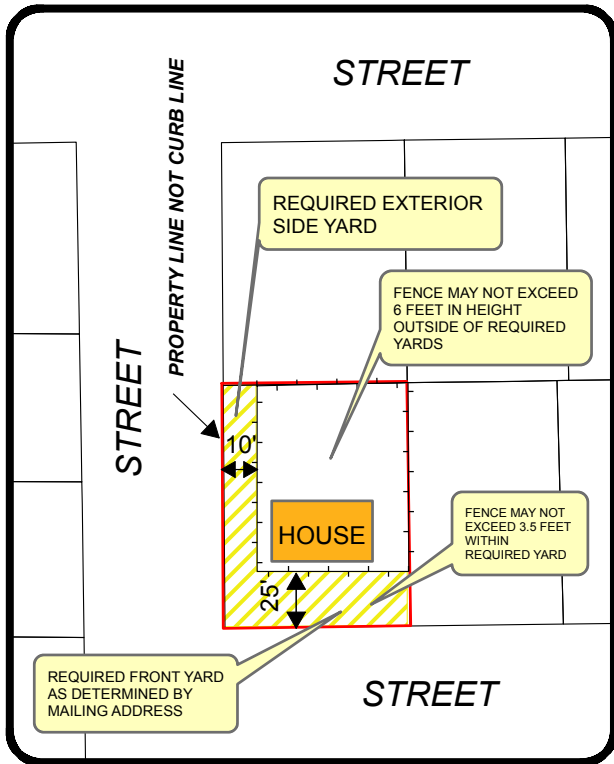

Permits are not required to erect fencing. If your property address is on Borden Road, Losson Road or Towers Blvd. an increased front setback applies. The required front yard can be as great as 50 feet. Contact the office of Building Inspections.

Every part of the fence installation, including the post holes, must be on the owner's property. Prior to digging below ground contact Dig Safely NY at 811 for underground utility locations.

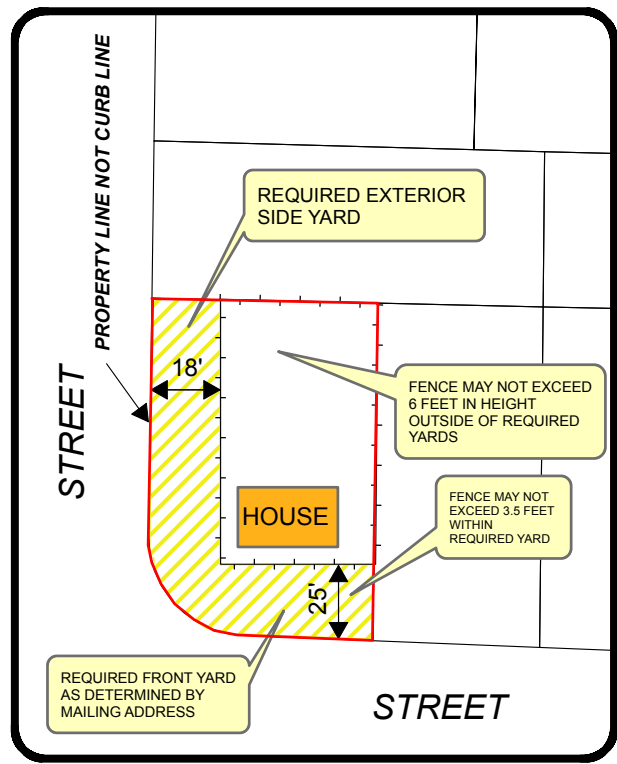

If your fence installation is for a required swimming pool barrier, the good side of the fence must face outward.
