Town Supervisor

## **To the Citizens of the Town of Cheektowaga:**

As the Budget Officer of the Town of Cheektowaga, it is my pleasure to present this 2015 budget document. Our budget has been prepared in compliance with New York State Town Law, which is explained in the "Budget Process" section of this document. In preparing the 2015 budget, we have adhered to these statutes.

The preparation of the Town's annual budget is a difficult and serious process. We have an obligation to our residents to continue to provide high quality services, while attempting to keep tax increases to a minimum.

The 2015 adopted budget presents a realistic picture of not only the Town's financial blueprint, but when you look behind the numbers, you'll see a commitment and dedication to providing our residents with the quality programs and services that they have come to expect. The 2015 budget includes a 3.87% decrease in the overall Town-wide tax rate for an average taxpayer.

We spent many weeks scrutinizing the budget figures to minimize the spending plan. These cuts came in the few areas of the budget that we have the ability to cut such as equipment and purchases of outside contracted services. However, growing employee benefits expenses including health insurance and mandated employee retirement plan costs hindered the cuts. As a result, the 2015 budget includes an increase in appropriations of only 1.04%.

This budget does not include raises for elected officials, department heads, management personnel or union employees whose contracts have expired. There is a minor increase in the total payroll costs in the 2015 budget. A personnel policy for elected and non-union employees was implemented on January 1, 2010 which set the precedent for the negotiation of future contracts with employees. Highlights of this policy call for contributions by all employees toward health insurance premiums, a reduction in benefits for future employees and, most important for the future of our Town, the end of legacy health insurance for all newly hired employees and newly elected officials.

I work to ensure that the Town is run in a fiscally responsible manner each and every day. We value our AA2 rating from Moody's Investors Service which is the highest of any town in Western New York. Our Town Board members and department heads are committed to ensuring that they are fiscally prudent with your taxpayer dollars.

## Budget Highlights

**Appropriations**—the largest functional areas of spending are *Public Safety* (which includes such services as police, communication systems, safety inspector and traffic control), *Home and Community Services* (which includes services such as sanitary sewers, water line construction and maintenance, garbage and recycling services and drainage) and *Employee Benefits*.

The chart below displays the budget's areas of spending. As shown, the budget's largest areas of spending are in the *Personal Services* (which are salaries to employees) and *Contractual Expenses*.

**Estimated Revenues**—as shown in the figure on the following page, we are heavily dependent upon *Real Property Taxes*, with the next largest source of income being *Non-property Taxes* (which consist primarily of a share of sales tax distributed from Erie County and cable franchise fees).

I would like to thank the Town Board members and our department heads for their efforts over the past year. I also challenge them to meet any financial tasks ahead with a renewed sense of financial conservatism. We owe it to the people we serve.

Sincerely,

Mary F. Holtz  
Town Supervisor

The budget preparation process is heavily governed by New York State Statutes. Town Law Sections 103 through 113 define the statutory restrictions placed on the budget process.

In the Town of Cheektowaga, the Supervisor serves as the Budget Officer and has the responsibility for the preparation of the initial budget document called the “Tentative Budget”. Following the Supervisor’s submission of this budget to the Town Board (through the Town Clerk), a number of budget work sessions are held by the Town Board. The Town Board then approves a second draft of the budget called the “Preliminary Budget”. They also call for a public hearing on this “Preliminary Budget”.

Following the public hearing, further work sessions are held before the Town Board approves an “Adopted Budget” which is filed with Erie County. A budget calendar is included herein which outlines the action dates for this process.

This process provides substantial opportunity for public input. The initial submission of departmental estimates is generally based on each department head’s dealings with the public and their service needs. These are often discussed throughout the year with the Town Board committee chairperson governing that department. When the Supervisor files the initial budget, a press release is made and a press conference is held. This provides the basic source of data for public consideration prior to the formal budget public hearing. Town Board work sessions are generally open to interested public as well. All detailed versions of the budget are available for public inspection in the Town Clerk’s office.

Throughout the year a simple majority vote of the Town Board is required to amend budgetary line items. Nearly all appropriation items are subject to transfer, with only minor exceptions as outlined in Town Law, section 113 and Highway Law, section 285.

Budget monitoring is provided through the use of full encumbrance accounting. The Town computer system generates budgetary status reports on demand. These reports are also generated at least once a month. These are distributed to department heads as well as the full Town Board. At the end of the seventh month in the fiscal year, a forecast of budgetary performance is reviewed by the Director of Administration and Finance. This review becomes the basis for fund balance estimates to be used in the upcoming budget preparation. Audited financial statements at year end include budget and actual comparisons. They become a part of the Comprehensive Annual Financial Report which has been awarded the Governmental Finance Officers Association “Certificate of Achievement for Excellence in Financial Reporting”. These year end reports are available for public inspection in the Town Clerk’s office.

General budgetary performance will also be monitored through the use of comparative statistics and data generated by various sources such as:

- ◆ *Government Finance Officers Association*
- ◆ *New York State Comptroller’s Office*
- ◆ *Inter-City Management and Municipal Analysis Services Inc.*
- ◆ *Erie County Comptroller*

Throughout the budgetary development process, the Supervisor and Town Board strive for the consistent application of the following budgetary objectives:

- 1) Full compliance with New York State statutory requirements.
- 2) Equitable assessment of costs to benefited citizenry primarily through use of special districts and user charges.
- 3) Appropriations to be made in sufficient detail to facilitate effective departmental accountability.
- 4) Four basic program priorities to be funded are:
  - ◆ Police
  - ◆ Sanitary sewerage
  - ◆ Sanitation (solid waste)
  - ◆ Highway development and maintenance
- 5) Indebtedness to be issued only for projects having minimal useful life of five years. Indebtedness not to exceed 20% of statutory maximum.
- 6) Significant (10% or more) fluctuations in annual appropriations must be justified by documented changes in service levels.

These budgetary objectives have been developed over the past ten years. They reflect generalized goals that have been agreed upon during various aspects of the annual budget process over that time period.

As budgetary pressures upon local government increased it was deemed important to direct the costs of services to those benefited. This was facilitated in New York State through the use of Special Districts, which are geographic portions of the Town established to provide specific services for limited segments of the Town. These districts are used in the areas of sanitation, lighting, sanitary sewerage, water lines, storm and drainage, as well as hydrants.

The desire for accountability led the chief financial officer to appoint Town Board members as Functional Committee Chairmen to assist in determining the appropriate level of budgetary detail required by their departments to facilitate accurate monitoring.

The identification of four key programs as top priority was deemed necessary to simplify the appropriation review process. General agreement as to the funding of these areas is required before discussion of the many remaining departments.

Control of Town indebtedness was agreed upon in an effort to minimize fluctuations in the use of borrowings to fund capital related needs.

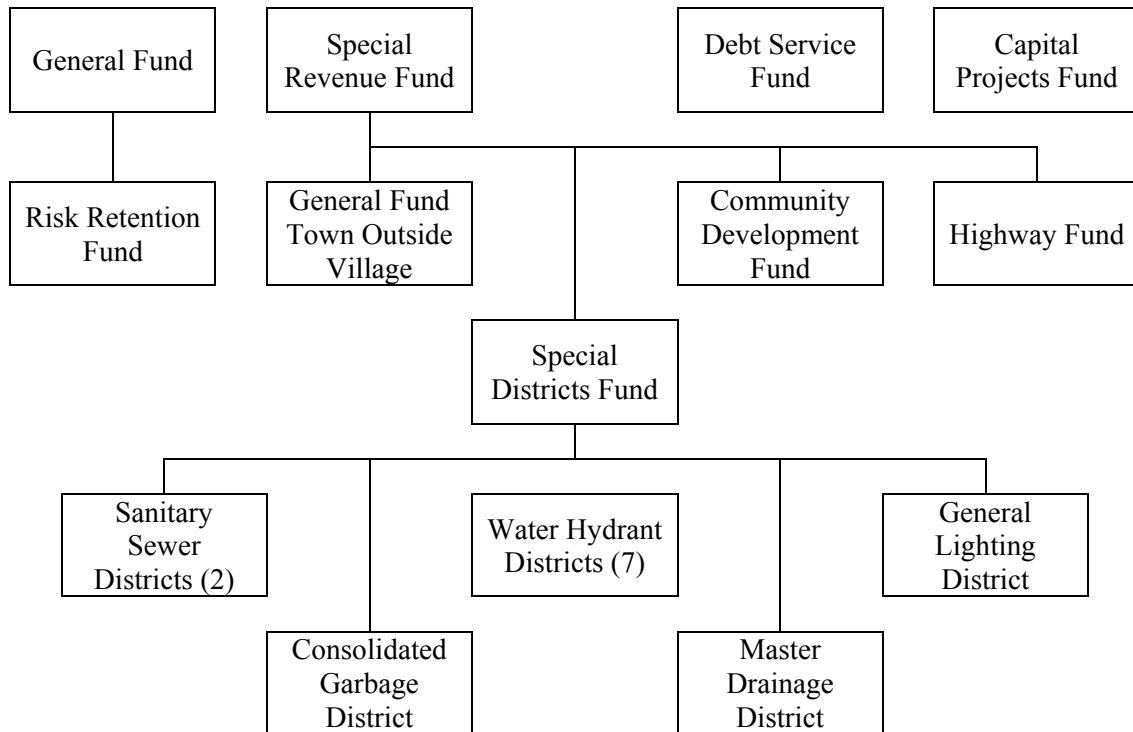

These policies provide for a general framework in budget preparation. However, there is significant opportunity for input from citizens, department heads and members of the Town Board.

## Financial and Operating Structure

### 2015 Budget

The Town of Cheektowaga's financial structure and accounting system maintains and reports operations in accordance with New York State's Uniform System of Accounts for Towns. The operating funds are reported in the following manner:

Each of the funds and districts below maintain a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues and expenditures. Town resources are allocated to and accounted for in the individual funds based upon the purpose for which they are to be spent. A description of the purpose for each fund is included in this document.

The coding of detail estimated revenues and appropriations within this budget document is structured as follows:

#### Revenues:

**Financial and Operating Structure (concluded)**  
**2015 Budget**

New York State's Uniform System of Accounts (USAC) includes an alpha fund designator as noted above; however, the Town's computer system is designed to utilize numeric codes to identify funds. A reconciliation of USAC codes to the numeric Town codes used as shown below:

Fund Designator:

<u>USAC Code</u>	<u>Town Code</u>	<u>Fund</u>
A	100	General Fund
B	800	General Fund – Town Outside Village
CD	700, 900, 110, 140	Community Development Fund
CS	101	Risk Retention Fund
D	300	Highway Fund
SD	150-900	Special Districts (each district then has a sub-numeric code)
V	120	Debt Service Fund
H	5000-5999	Capital Projects Fund

**Appropriations:**

Generally, this document contains budgets for all operating funds, exceptions to this rule, and the reasons for exceptions are:

**Community Development Fund (within Special Revenue Funds)**

- ◆ This fund's budget is set when allocation of Federal funding is determined (which does not coincide with the Town's fiscal year). Budgets in this fund lapse when the grant funds are exhausted (rather than at the end of any specific period).

**Debt Service Fund**

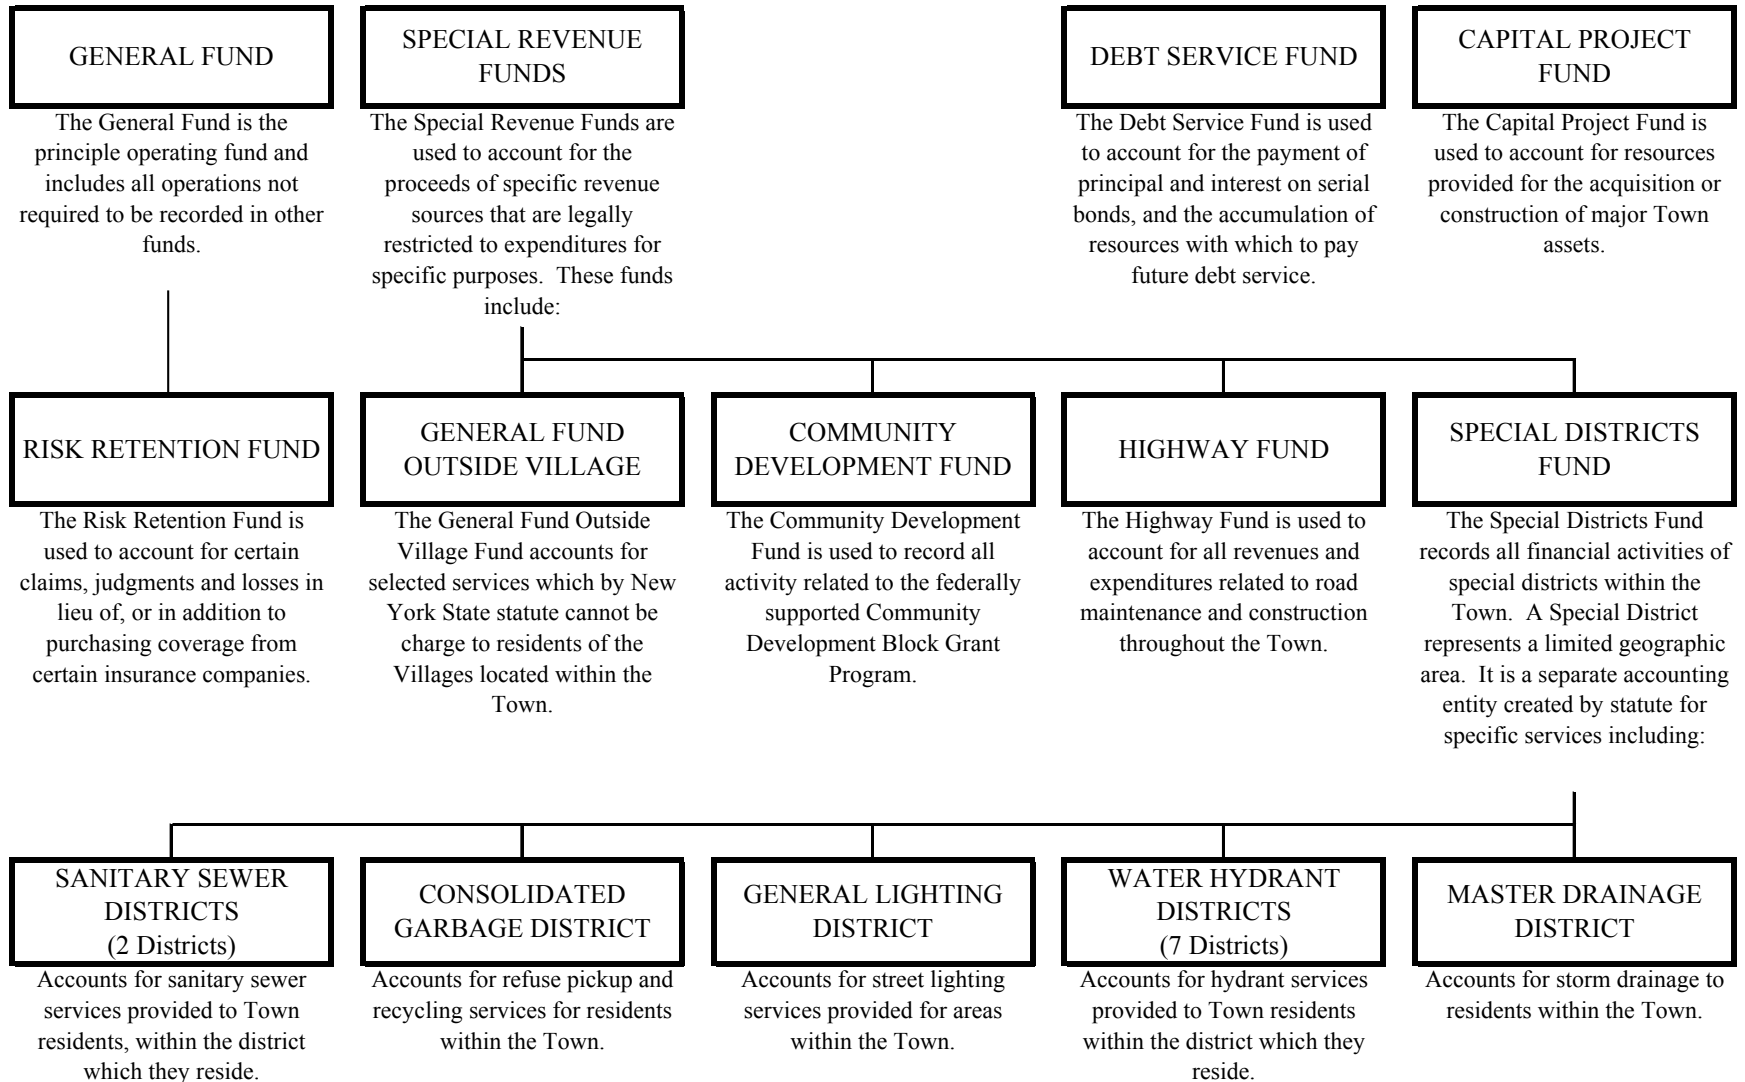

- ◆ This fund's budget merely reflects the payment of debt, which is budgeted for in the other operating funds. Therefore, the use of these compensating controls precludes the necessity of a formal Debt Service Fund budget.

**Capital Projects Fund**

- ◆ The individual projects are authorized on a project by project basis by the Town Board resolution at various times during the year (as the need for the project is determined). Appropriations for such projects lapse upon the completion of the project.

**Debt Management**  
**2015 Budget**

The Town utilizes short term borrowing in the form of bond anticipation notes, as required, and long term debt in the form of serial bonds as a means of financing Capital Projects only. The Town may also utilize interfund borrowings as a temporary means of financing Capital Projects. Debt is not utilized to finance the current operations of the Town.

Under Section 104 of the Law of Towns of New York State, the Town is limited in the amount of debt it may issue. The legal debt limit is computed by obtaining the average full valuation of the Town for the past five years and multiplying by 7%. Debt related to providing water and sewer facilities may be excluded from the debt limit.

As stated in the “Budget Policy” section, the Town Board has decided not to exceed 20% of the statutory debt limit. This should minimize fluctuations in the use of borrowings to fund capital related need, and smooth future debt service requirements.

The following pages contain amortization schedules for the Town’s current serial bonds outstanding. These schedules show the future impact on the operating funds (through principal and interest payments) for the debt previously issued.
